## EDUCATION

2023- 2026

ADDIS ABABA UNIVERSITY

- Bachelor of Science in Information System(IS)

## SKILLS

- Web Development
- HTML
- React
- CSS
- PHP
- MYSQL
- JS
- Git
- React-native

## LANGUAGES

- English (Fluent)
- Amharic (Fluent)
- Afaan Oromoo (Fluent)

## PROFILE

Motivated and detail-oriented Information Systems student at Addis Ababa University with a strong passion for software and web development. Seeking to leverage my technical and analytical skills in HTML, React.js, PHP, and MySQL to contribute meaningfully to projects while gaining professional experience. Eager to work in innovative environments that support learning, creativity, and growth.

## WORK EXPERIENCE

### OBN

Internship on IT Department

JULY 1 -SEPTEMBER 1,

- Assisted with system maintenance, software installation, network troubleshooting, and basic website updates as part of the IT support team.

## PROJECTS

### Online Voting System

- Created a secure and user-friendly voting platform with candidate selection, voter authentication, and admin monitoring. Designed responsive UI and implemented role-based access. Built using HTML, CSS, PHP, and MySQL.

### Public Transportation Management System

- Designed a web-based system for managing buses, routes, and schedules. Admins can add/update transportation data, while users can search and view route availability. Built using HTML, JavaScript, PHP, and styled with Bootstrap.

### Multi-function Web Calculator

- Developed a responsive browser-based calculator supporting both basic and scientific functions using HTML, JavaScript, and Bootstrap. Included input validation, clear/reset features, and keyboard support for enhanced usability.
